TYOPR THE SAME AND FIRM OF RUFUS KING & CC. THE LAKE SHORE RAILROAD.

The attention of our entizens, and of all perso living in the towns and cities on the western shore of lake Michigan, is invited to the imperative necessity of this railroad, which has been long in contemplation. The Company, as will be seen by its advertisement, has had its preliminary or ganization; the necessary amount of stock b been subscribed, and the Directors are soon to b

There is a large population, and a but it site There is a large population, and the state of this tood, which then West as Conce's Assertant Published by I. A. Homiston, and the proposed line of this tood, which then West as The L. S. Hort, Militarities—Review Kino & Co. requires such accommodation. Neither in special nor in containty can the steamers supply the want, and a milroad nust be a paying stock. Beyond the needs of the lake towns, howeve there is the large travel and business of a great partion of the interior, which will press towards the nearces point on a lake shore milrond as soon as one is built, and the facilities for travel and business will increase both. This rule is too well established to need any argument; and in view of it, whatever we have heretofore urged in favor of avenues of trade and travel leading to this city is applicable to lines running torough it in any direction. Hence it is that our people me inter ested in the lake line, for if travellers are induced to come this way on their route to the East, they must be so induced by safe, and speedy mear ; of

continuing there journeys.

Of the vant benefits to be gained by all of our lake towns in the incre-sed intercourse between them, nothing need be said. They are self evideat ; and the road proposed, and we hope speedily to be completed, is an enterprise in which we can all heartily unite. When Sheboygan and Kenosba and the intermediate towns are within two or three hours rule of us, we hope that we shall all know and like each other better

Political Aspects.

The able and observing editor of the Poston Atlas, in a late letter from Washington, thus speaks of political natures and prospects:

The political claments are rapidly combining in this city. The Union party scheme is alamdored as Lapoles, and the Southern Democrate, who who the first to lead off in it, have given in their adherence to the Democratic party, and expinessed their determination to stand by the non-inations of the Ealrianne Convention, and upon the platform decided by the Convention which me in that city, in 1848, and nominated Cass and Buildy. A national convention will be held, and the Whigs of every State will be therein represented. Nominations will be made for the Presidency and Vice Presidency, and of the rank and file, from Maine to California;—and I have a strong abiding faith that the good cause will be victorious. GREAT DISCOVERY. JOHNSON'S CHEMICAL HAIR INVIGORATOR, To Prezent Bailness, and to Restore the Hair that has fall-en off or become thin, and to cure effectually SCURT OR DANDRUFF.

SCURT OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st, FOR THE TOTLET,

THE INVIGORATOR Is considered infinitely better than oil or grease for the hair, and is an article in which a cleanting and purifying wash is beautifully blended with a most delicate, sliky and glossy moisture for the hair, never before nationed, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which five the hair, thereby preventing haldness and gray hair, entirely frees the skin from sear, dandertif, and other entances disposes the hair to curel, and liceps it so; will positively clange the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and huminant state until the lastest period of life.

Ladies will find the invigorator a great addition to the toilet, both on account of its deficate and agreeable perfume, and the great feelilies is afforded in dessing the hair, which, when moist with the Invigorator, can be dressed in any required forms, can so preserve its place, whether plain or in curls. When wed on children's heads, it lays the foundation for a good head of hair.

The BEST FEMALE BEDIEINE KNOWN!

The peculiar naladies to which females are subject commonly produce greet bodily exhaustion, accompanied by a depressed and other gloomy state of unital. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equantinity of the temper. Every cauliful woman who has suffered from female complaints will admit this to be the mournal truth. Now, to obtain relief, at Isouly necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result to specify and complete as "Dr. Guysoff a Improved Extract of Yellow Dock and Earsquerilla."

Ladies of pale complex ton and consumptive habits, and such as are debilizated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

Of the Erydocks it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

from which the above cut was taken. By it we can take the exact shape, and unoringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the impensions, to call and see the operations of this curious instrument.

Having adopted the Casa Syrrax (which all will readily acknowledge to be the best,) we are combled to sell the best Silk Hat made, at the extreme low price of \$1.25; surpassing any \$5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in officing them to our cross-oner, we do so, with the comblent assurance, they are all we recommond them to be, we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and so us.
